

Air Inlets

Types LZ

- Plastic air inlets suitable for use as air inlets in room interior
- Counterbalanced louvre blades open in case of negative pressure
- Air inlets with flexible free cross-section
- Air-conducting louvre blade and louvre blades for minimum flow of incoming air manually adjustable
- Minimum flow of incoming air can be guided e.g. to the animals in summer and along the ceiling in winter
- A row of air inlets may be assembled alongside one another
- Types LZ 4D, LZ 4DF: Insulated louvre blade instead of counterbalanced louvre blade

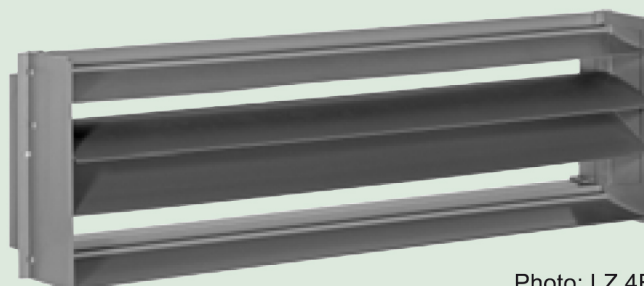

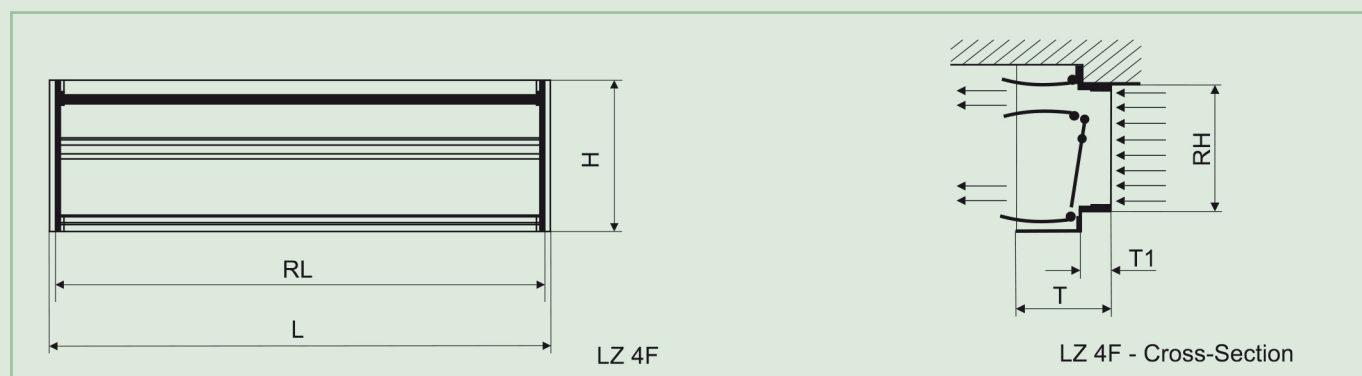

Photo: LZ 4F

- Types LZ 4F, LZ 4DF: Frame fitted with side mounting flange
- Louvre blade geometry guarantees efficient air intake
- Manufactured of high standard ecologically friendly plastic
- Specific design guarantees high durability
